**HOLIDAY GIVING
STAFF & ANIMAL SPOTLIGHT
SPRING 2022 REGISTRATION**

HOLIDAY GIVING

**HELP PROVIDE FREE SCIENCE EDUCATION TO YOUR
COMMUNITY!**

As 2022 approaches, we are grateful to those who have supported us through the years and continue to support us. Continuing with the spirit and goals of [GivingTuesday](#), please consider donating to Nature Vision this season. Donations support our team in providing environmental education to our communities. Building a relationship with our environment requires investing our time, resources, and energy into helping one another foster a collective understanding. Together we can respect and protect our local watersheds and all living things within them. A holiday donation to Nature Vision could be one step towards building this future.

DONATE TO SUPPORT ENVIRONMENTAL EDUCATION PROGRAMMING!

STAFF SPOTLIGHT

MEET SARAH AND KATIE

Please meet a couple of Nature Vision Educators:
Sarah (left) and Katie (right)!

On Wednesdays in October and November, these two taught our [Afterschool Program](#) attendees all about Washington's native flora and fauna at Farrel-McWhirter Farm Park. They also lead [classroom](#), [Blue Team](#), and [community science](#) programs throughout King County! They bring a wealth of knowledge and bright smiles (under their masks, of course) to every indoor, outdoor, and virtual classroom they teach.

ANIMAL SPOTLIGHT

MEET THE AMPHIBIANS

There are a few extra special Nature Vision staff members who help our Educators teach some of our programs: Luna, Playa, and Gandl (pictured to the right)! These three salamanders take turns helping students learn in our ["Toadally" Amphibians](#) programs. Students learn all about the life cycle, metamorphosis, and adaptations of these unique creatures, as well as how our actions and water use habits can affect amphibians in local watersheds.

Register now for Spring 2022!

As fall semester wraps up, now is a great time to get Nature Vision programming on your calendar for Winter/Spring 2022! Check out our fully-funded science programs for your K-12 students (or pass the word on to other teachers) by visiting naturevision.org/school-programs.

Interested in our Afterschool Programs? Visit naturevision.org/day-camp-programs.

To find free programs for your K-12 class or for registration help, please email info@naturevision.org.
